

# WARRANTY

ReforceTech™ AS ("ReforceTech") warrants its products as described in official company literature as per specifications to be free from defects in material and workmanship provided that they are properly stored, handled and installed per instructions. Users are advised that the surface finish of products will include protruding resin coated fibers and is not a defect. These fibers can irritate or embed in skin, so appropriate protection (gloves, clothing, safety glasses, etc.) commonly used in construction should be worn by anyone handling the products.

ReforceTech's obligation under this warranty is limited to replacement of the defective products when notified within sixty (60) days from date of purchase and before installation.

In no event shall ReforceTech be liable for consequential or special damages or other charges for adjustments, repairs, replacement of products, installation or other work which may be done upon, or in connection with, such product by the purchaser.

The warranties provided in the obligations and liabilities of ReforceTech™ are exclusive. The purchaser hereby waives all of the remedies, warranties, guarantees or liabilities whether expressed or implied. *ReforceTech has no control over the design, production, placement or testing of the concrete products in which ReforceTech™ products are incorporated, and ReforceTech™ disclaims all warranties, or other terms or conditions, express or implied, save as cannot be excluded by law, including without limitation, warranties of merchantability or fitness for a particular purpose, or arising from provision of samples, a course of dealing or usage of trade.*

No one is authorized to make any warranty or representation as to the use of these products other than those set forth in official ReforceTech™ literature including brochures, data sheets and instructions.

The user is advised to read all statements, recommendations and suggestions in regard to the use of the products. It is based on the best knowledge of ReforceTech™ and represents generally accepted procedures for successful installation. They may be followed, modified or rejected by the owner, engineer, contractor or their representative since they are responsible for executing procedures appropriate to a specific application. ReforceTech™ assumes no responsibility for the use of these statements, recommendations or suggestions, nor does it intend them for any use which would infringe any patent or copyright.

Any products referenced which are manufactured or supplied by firms other than ReforceTech™ are mentioned for the convenience of the purchaser.

ReforceTech™ does not warrant nor guarantee the performance of products supplied by others. All complaints, requests for information and technical assistance as well as purchase orders should be referred directly to those companies.

ReforceTech™ products are designed to reinforce concrete, grout and similar materials using a cement matrix. Responsibility lies with the engineer to specify the correct size, location, strength and distribution of reinforcing to achieve a structurally sound element.

ReforceTech™ data sheets provide approximate data on the strength of the products. These may be revised from time to time to reflect product enhancements and field experience. The user should contact ReforceTech™ to obtain the latest information.

The technical information and procedures contained in the literature are the intellectual property of ReforceTech™. The material properties are unique to ReforceTech™ products. Certain procedures, details, methods, descriptions, techniques and applications shown are copyrighted. Application of this information to other products should not be allowed and may create a hazardous situation. ReforceTech™ will not be held liable for the use of this information or the misapplication to other products.
